Memories from 1971---

My little contribution for the independence of Bangladesh. Pictured here are late Aftab Ahmed bhai (former professor of commerce college in Khulna) and myself along with other church officials near Houston, Texas in 1971, after we just finished our presentation on Bangladesh. We used to go around and give talks on people and history of Bangladesh in churches and schools to educate Americans. This picture was taken by Aftab bhai's wife Selina Ahmed, who used to live and study in Denton Texas. There were a total of 5 people from Bangladesh in Houston in 1971, all students of University of Houston. We all worked together to raise funds and give talks on the plight of Bangladeshis. The names of other two Bangladeshis, not pictured, who were also part of our community and team : Dr. SS Newaz bhai and Dr. Kabir bhai (all from Khulna).
